

January 7, 1976

PRESIDENT: All right. The question is, shall LB 386 be advanced to E & R Final. All those in favor say aye. Contrary say nay. Yes, state your point. Just a minute. Senator Barnett, yes, sir.

SENATOR BARNETT: A question of the Chair. Didn't you just suspend the rules to have a voice vote by roll call?

PRESIDENT: When that is required, yes, sir. When that is required. We think that it is not required to have a machine or a roll call vote to advance to E & R Final.

SENATOR BARNETT: I am sure you are right but I think the amendment and the suspension of the rules was not stated so that it was so there would be a record on the advancement of this bill.

PRESIDENT: No, it is for the balance of the session, I think, Senator, because we may have other votes that will come up that do require a machine vote and so this suspension of the rules will hold for the balance of today's session. That is what I had in mind, Senator, so that we wouldn't have to do it later on, but in this instance, I think the rules provide for advancement to E & R Final or voice vote. You can request a machine vote, though, I think according to the rules. LB 175.

CLERK: Mr. President, there is a request on LB 175 to bracket to January 12th. Signed Senator Fowler.

PRESIDENT: Any discussion? The question is the bracketing to January 12th, Senator? All those in favor say aye. Contrary say nay. The bill is bracketed. LB 536. We are having some trouble, Senator Syas. Nice to have you back.

CLERK: Mr. President, LB 536 is on Select File with no Committee amendments or E & R amendments pending. So the only motion is to advance it. It is the Ag Committee but Dworak used to do it.

PRESIDENT: All right. Senator Dworak. There is no amendments to LB 536. Do you want to move to advance?

SENATOR DWORAK: Mr. Chairman, I move that LB 536 be advanced to E & R for enrollment.

PRESIDENT: You have heard the motion. Any discussion? All those in favor say aye. Contrary say nay. The bill is advanced. LB 394.

CLERK: Mr. President, LB 394 has been before the Legislature before. It failed to advance on May 16th. It did advance on May 19th. There are Committee amendments, Mr. President, which do not appear to have been adopted. There are a series of other amendments pending on the bill and a motion to kill it.

PRESIDENT: Senator Murphy, because of the malfunction here and because of the complexity of this bill, would you be agreeable to holding this bill over until tomorrow when our machine is functioning?
